

TRANSPORTATION SOLUTIONS

Merging Ideas into Creative Solutions

PDG's transportation staff has extensive knowledge of Federal and State Department of Transportation (DOT) standards and requirements. We have a wealth of experience in complex roadway and major bridge design, including DOT plans. Additionally, we have experience in planning, design/inspection of highways, bridges, storm drainage and traffic control. Our diverse client base of public and private entities allows us to have a unique perspective of the clients' challenges as well as visions to develop innovative solutions for their transportation projects.

- 45 years of Experience
- An Employee-Owned Company
- Staff of 140+ with Full Range of Design Services Nationally
- 45+ Registered Professionals
- LEED Accredited Professionals
- Comprehensive Services from Conception to ongoing Infrastructure Management

Teamwork with Diversity

The diverse nature of our firm's transportation staff is displayed through the backgrounds and experience of our key technical people who average more than 25 years of experience.

Support for our Transportation staff includes Civil Engineers, Environmental Engineers, Planners, Surveyors, Economic Development Specialists, Grantwriters.

\$1.1 Billion

Our qualified funding specialists evaluate potential resources and pursue grant and low-interest loan funds to make your transportation project a reality.

Prequalified Services
